Press Release
Taos Recognized as a Best Commuter City in New Mexico

August 28, 2015- Taos has been named one of the “Best Commuter Cities in New Mexico” by Obrella.com – a website dedicated to providing insurance resources. The report provided by Obrella indicates that the average worker in Taos spends approximately 14.1 minutes per day commuting to work. The report also emphasizes that economic development initiatives are helping attract small businesses to Taos, which could further improve the commuting time.

Obrella reports that workers with a shorter commute have more time to enjoy healthy activities such as resting, exercising, and preparing meals; thus adding to a better quality of life. In addition, if a worker’s commute is longer, there is a good chance they will pay a higher insurance premium.
